In 2015, ELY worked with the Minnesota Historical Society (MHS) to pack and crate their Toys of the 50s, 60s, and 70s traveling exhibition. ELY's team also manages all shipping and installation logistics for the national tour including venues in Denver, Pittsburgh, and Seattle. Visitors can experience the exhibit's artifacts and audiovisual components through imagined living rooms that bring each of the three decades to life. ELY works with the MHS and host venues to install the exhibit's structures, artifacts, and audiovisual features.
